

LET'S GO FISHING!

Part #3: Knots & Rigs

1. How many times should you wrap the tag end around the main line when tying a Half Blood Knot?
 - A. 1
 - B. 3
 - C. 5
 - D. 15
2. Why do we wet the knot with saliva or water before tightening it?
 - A. To make the line a bit thicker
 - B. To lubricate the knot and reduce friction
 - C. To test how strong the knot is
 - D. To find out what the line tastes like
3. What makes the Improved Half Blood Knot stronger than the ordinary Half Blood Knot?
 - A. Its longer name
 - B. The shorter tag end
 - C. Tying it with your eyes closed
 - D. A double loop through the hook eye
4. What is the best sinker to choose?
 - A. The smallest one you can get away with
 - B. The biggest one you can find
 - C. The shiniest one in your tackle box
 - D. One without a hole in it
5. If you need more weight to cast further, or to get your bait deeper in the water, you can:
 - A. Tie on a much bigger hook
 - B. Use brightly coloured string for line
 - C. Add a second sinker to the rig
 - D. Move to another fishing spot
