

LET'S GO FISHING!

Part #4: Baiting Up

1. Where can you find earthworms to use for bait?
 - A. Near the surface in the open ocean
 - B. On shallow, tidal flats in the estuary
 - C. On a beach, just above the tide line
 - D. In your garden or compost heap
2. Why shouldn't you use imported seafood as bait?
 - A. Because it's too expensive
 - B. To prevent the spread of diseases
 - C. Because our fish won't recognise it
 - D. Because it won't stay on the hook
3. What's another name for a saltwater yabby?
 - A. Murray crayfish
 - B. Blue swimmer crab
 - C. Pink nipper
 - D. Soldier crab
4. When would you use a peeled prawn rather than a whole one?
 - A. When the fish are smaller or biting softly
 - B. Where the water is very deep
 - C. Early in the morning or late in the afternoon
 - D. When the fish are big and biting well
5. What should you do to make a lure more attractive to fish?
 - A. Cast it out and let it lie on the bottom
 - B. Paint it black and remove the hooks
 - C. Use your rod and reel to make it look alive
 - D. Keep it safe and dry in your tackle box

CORRECT ANSWERS PART #4: Baiting Up

Q1=D, Q2=B, Q3=C, Q4=A, Q5=C
